Dog Paw Cleaning Kit

Dog Paw Cleaning Kit

Dog paw cleaning cup
Removable wipes pouch
Foaming paw scrubber
Absorbent paw towel
Paw balm

Removable treat pouch
Tethered key clip
Zippered exterior &
interior wipes access
Interior money pocket

Convertible Backpack or Crossbody style, ready for hikes in cold weather. Disconnect straps completely and keep the kit in your car and be ready for the unexpected.

Neoprene fabric keeps water, wipes and paw shampoo insulated during cold weather.

Waste Bag Access with Zippered Access

Foaming Paw Scrubber

Directions:

1. Fill 1/3 bottle with your dog's favorite shampoo.
2. Top the bottle off with water. Tweak ratio as needed.
3. Remove safety clip.
4. Pump foaming shampoo into brush.
5. Clean paw, and rinse as needed.
6. Pat dry with dog paw towel.

Paw Balm

Directions:

Fill with your favorite balm (Musher's Secret, Coconut Oil, etc. that will remain solid at room temperature.

Dog Paw Towel

This was my favorite yoga face towel. And, it worked really well for drying my dog's paws, because it was lightweight and absorbed a lot of water.

It's more rugged than other microfiber towels (withstanding numerous tug of war games), and was soft/not scratchy.

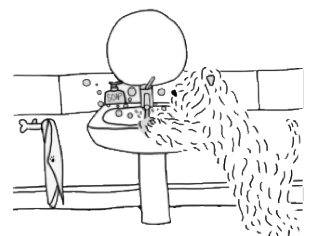

Water Bottle Insulator

My water bottle is often frozen in the winter. Keeping the koozie in the neoprene bag will help keep the water flowing for a quick paw wash.

Since water freezes from the top, turning the bottle upside down can also help.
